

To CPA Clients,

We know many individuals and families are feeling anxious or overwhelmed, and we at CPA are ready to help you connect with a counselor via secure video or telephone. We are positioned to offer potential same day or next day counseling services. Insurances are currently approving virtual sessions, thereby eliminating the need to meet in person. During this national emergency, many insurers are encouraging video and telephone appointments to stop the spread of the virus.

You can simply text/call your appointment request to 262-975-0012, or complete our contact us form: <https://www.clinical-psychology-associates.com/contact/>

You can complete initial paperwork and verify insurance coverage by clicking here: <http://www.clinical-psychology-associates.com/patient-resources-download-forms/>
Many insurance companies are waiving client cost share such as co-pays at this time, but please check with your insurance company regarding this.

We look forward to helping you through this difficult time.

Thank you!
