INFORMED CONSENT TO TREATMENT

Psychotherapy is a process designed to help people learn to function better and feel better in their daily lives. People seek therapy to change emotional, interpersonal or behavioral situations. In many instances people who do not receive treatment for emotional problems report that their distress increases and this can lead to a significant disruption in mental, interpersonal and physical functioning. Initially, many people report feeling an increase in distress as they come to grips with important issues. Through therapy people sometimes make changes in personal coping strategies, careers or relationships. These changes can be distressing to the individual, to family members and to friends. It is important that you understand the implications of beginning therapy, discontinuing therapy or changing your treatment plan. Your specific situation is unique and will be discussed in detail with your therapist.

I realize that my initial treatment plan should be developed with my therapist and approved by me. My treatment plan will evolve as my needs change and each change should also be discussed and approved by me. I understand that my therapist and I should regularly discuss the implications of my continuing in therapy, adjusting the modality of therapy, seeking alternative treatment, and the implications of terminating therapy. I also understand that it is my right to make any of these decisions. I further understand that my therapist is responsible to provide therapy, which he/she believes to be effective and appropriate to my needs. Finally, I understand that there may be limits of confidentiality with any communication via cell phone or email. I hereby consent to begin therapy.

For parents/guardians of children: I have the legal right to consent treatment for this child.

Therapist Policies

Billing rates

Your therapist's billable rate is \$_____ per 38-minute session and \$_____ per 53-minute session. Other lengths of sessions may be available for similar prorated costs. Some therapists do offer a sliding scale for some hardship cases. Please consult your therapist for that rate. Please ask your therapist if you would like a separate fee sheet for his/her services available.

Paying your bill

Each therapist expects that you bring co-payment to each session. If further money is owed, you will receive a bill each month. You can bring your payment into the office or mail a check. All therapists also accept VISA and MasterCard. If the portion of the bill owed by you exceeds \$200, ethically therapists require immediate payment of the bill.

Interest

There may be a monthly interest rate charge of 2.0% on any unpaid client balance. An account is considered past due if full payment has not been received after 30-days of the receipt of your bill.

No-shows/late cancellations

Each therapist reserves the right to charge up to their billable rate for late cancellations (within 24-hours of appointment time) and no-show appointments. Because of the nature of our business, and the amount of time we schedule for an appointment, the appointment time is a contract between you and your therapist.

Billing Service

Most therapists utilize an independent contractor for billing, JL Billing Services. JL Billing handles all claims, payments, and billing questions. If you have any questions regarding your bill, Judy Ligocki of JL Billing can be reached via phone at 262-679-5040 or via email at: JLBilling@ymail.com.

Other services

Most therapists are available for phone and email consultations at the rate of up to \$3.00 per minute, rounded up to the nearest 5-minute increment. These services will need to be paid out of pocket. Please consult with your therapist for his/her rate.

Referral/emergency services

If you require more intensive care, such as day treatment or inpatient care, Rogers Memorial Hospital (800-767-4411) is a possibility to meet your treatment needs. As always, if your situation requires immediate attention, please go to your nearest emergency room or call 911.
